

## **Community Development Programs**

### **Huron-Tule Enterprise Community (EC)**

Located in the Central Valley of California, these communities are largely agricultural with high concentrations of migrant and farm laborers. Off-season unemployment is often above 40%. Their Strategic Plan is holistic in its approach to addressing social and economic needs of area residents.

Included in the Huron-Tule EC Strategic Plan are:

- Expansion of waste-water treatment plant and water system improvements
- Development of the Tule River Indian Tribe's industrial site in the City of Porterville.

The EC has already seen benefits of designation including:

A \$3.4 million Rural Utilities Service combination loan and grant to correct deficiencies in the City of Huron's water system in order to bring them into compliance with current drinking water regulations.
